

Telemarketing calls should be stopped permanently. They interrupt my life every single day now, including Sunday. I am interrupted daily with computer recorded calls, or hang up computer calls which tie up my time and my phone line.

I do nothing to solicit these calls. They are more than a nuisance. They interrupt my sleep and keep calling back though I have asked repeatedly to be taken off their call list. They will not stop. I am so tired of this harassment in my own home. I work hard and am entitled to peace within my four walls. Please help STOP this illegal activity.

Do not make it possible for organizations of ANY KIND to circumvent the National Do Not Call List. Make no exemptions. They have found so many ways around the laws of our states. Do NOT charge citizens any money to be placed on a Do Not Call List, as some states have done. This is an infringement on my own right of privacy. I should not have to pay extra money to protect that right.
